Mateo Arismendy Uribe

arismendyuribemateo@gmail.com

Kitchener, Ontario, Canada, N2E 0G7

OBJECTIVE

As a computer programming student seeking a position as a front-end developer, my objective is to apply the knowledge and skills I have acquired in web development to create engaging and user-friendly interfaces that provide a seamless user experience.

EDUCATION

Computer Programming

Jan 2023 - Apr 2024

Conestoga College • Waterloo, Ontario, Canada

Computer System Technician

Feb 2020 - Nov 2022

SENA • Bogotá, Colombia

SKILLS

- Proficient in developing web and mobile applications, both independently and as a freelance developer.
- Use of computer tools such as Word, PowerPoint, and Excel.
- Designing tools such as Illustrator, Photoshop, Figma, Justinmind, and Blender.
- Skilled in a wide range of programming languages and technologies, including HTML, CSS, JavaScript, React, React Native, TailwindCSS, Bootstrap, and C#.
- Familiarity with version control systems (Git).
- Problem-solving and adaptability.
- Effective verbal and written communication in English, Spanish, and French.

WORK EXPERIENCE

Freelance Web Developer

Jan 2023 - Mar 2023

Pago Linea • Buenos Aires, Argentina

URL: https://www.pagotienda.com/

- Developed a responsive web application that allows customers to make online payments for products and services. The application included a user authentication system, payment gateway integration, and an intuitive user interface.
- Designed and developed a scalable and user-friendly web application using React and Redux.
- Integrated payment gateway with the application, enabling customers to make secure online payments.
- Implemented a responsive design using Tailwind CSS, ensuring the application is accessible across devices.

Technologies Used: React JS, Redux, Figma, Tailwind CSS.
